

The Improvement Service presents a one-day event:

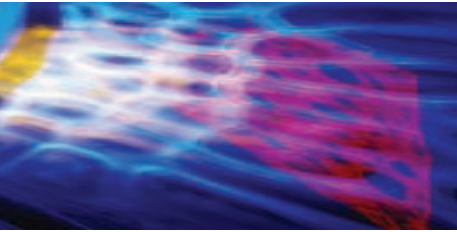

The Scottish Public Sector Enterprise Architecture

Thursday 16th September 2010

EMEA Executive Briefing Centre
Sun Microsystems
Blackness Road
Springfield
Linlithgow
West Lothian
EH49 7LR

Event hosted by **ORACLE®**

This event is designed to be of interest to Senior business stakeholders and Senior IT professionals in local authorities and other public sector organisations, working in Business Change, Organisational Development, Customer Services, ICT, Policy Decision Makers, and Transformational Government, through Shared Services.

Key themes and aims of the event:

Through a range of guest expert speakers, a case study, break-out sessions, and plenary sessions, the event will focus on a number of enablers that help demonstrate the benefits of enterprise architecture, as well as how to overcome the barriers. The key themes include:

- Creating a Business case for Enterprise Architecture
- How to implement Enterprise Architecture in your organisation
- Realising the benefits of Enterprise Architecture
- Issues and how to overcome them
- Learn from case studies of organisations already using Enterprise Architecture

PROGRAMME

9.45am	Welcome & Introduction followed by sessions on <ul style="list-style-type: none"> - Enterprise Architecture: Setting the Scene - Practical Enterprise Architecture - Making the case for EA in a Local Authority - Scottish Police Approach to Enterprise Architecture - Challenges of Enterprise Architecture in a large federated organisation - Using Business Process Management to Reduce Costs and Maximise Return on Investment - Implementing Enterprise Architecture as well as break out sessions
