

# Scenario Workshop Tips

- You want the group to consider out with the norm, what might our future look like in the years to come.
- For example - Highlight if you asked yourself this question a year ago would anyone have predicted COVID-19 and the impact it has had.
- You may wish to use story telling as a facilitation tool here to explore what a scenario may look like.
- Developing scenarios then enables the strategic planning process to be robust and flexible if required as it focuses on the 'what ifs'.
